A household is defined as the people who occupy a housing unit at their legal permanent residence.

A household includes the related family members and all the unrelated people, if any, such as lodgers, foster children, wards, or employees who share the housing unit. A person living alone in a housing unit, or a group of unrelated people sharing a housing unit such as partners or roomers, is also counted as a household.

A recipient may have experienced unemployment and can qualify as an individual.

A recipient may qualify for assistance based on their household's qualifications or receipt of other qualified federal benefits.
